Also within the past week Google Chrome updated to version 14 No coincidence After a lot of trial and error we found that only Safari 5.. Essentially all I did was create a wrapper around wsproxy py that can talk to the nova message queue for auth.

Basic usage is like so: cd noVNC /utils/nova-wsproxy py 6080 --web Which will run the server in the foreground, and should be able to handle requests that redirect from dashboard's 'vnc console' links.. Hi All, We're using nova-vncproxy and noVNC ( ) and it recently (within the past week) stopped working for us.

Donate For Mac

Micro Focus Kanaka for Mac provides macOS users single login access to eDirectory user and group storage resources.. org/which_linden/ev) VMware Horizon View Client for Mac OS X Release Notes Horizon View Client for Mac OS X 2.. However, noVNC works best and is fastest in Chrome (any version) and Firefox 4 (with native WebSockets manually enabled, see note 4).. 1 on both the Mac and Windows was still working Chrome is no longer working Can anyone confirm this? Does need to pull updates from to improve browser compatibility? According to ('In general noVNC works on any browser with Canvas and WebSockets support (either native or via web-socket-js) which is just about everything except IE 8 and lower.. If this is more appropriate for the Nova project, I'll move over there Thanks, Everett. Cisco Vpn For Mac Free Download
